How Is Your "Culebra Cut"?

The Panama Canal is a clear passageway as far as the Culebra Cut. But Gold Hill has a way of slipping into the cut. And until dredges can clear the channel, the industrial schedule of the world is out of gear

How about your own canal? The intestinal canal is a clear passageway as far as the large intestine. There, if you become constipated, waste matter is allowed to stagnate. It becomes unnaturally dry and undergoes abnormal fermentation and putrefaction. Germ activity is increased. Your whole system is out of gear. Result, the production of irritating and poisonous substances, which are absorbed into your blood and carried all over your body, liable to produce disease anywhere. The longer such stagnation. is allowed to exist, the harder it is to clean out the canal 90% of human disease originates in the "Culebra Cut"

If engineers tried to blast our the slide from Culebra Cut they would have more stides to cope with. If you try to blast out accumulated waste from your Culebra Cut with pills, salts or purges, you will increase your constipation and next time you will have to take stronger medicine in a larger dose.

> You can't dredge your canal. You can clean it out with Nujol.

Nujol softens the mass, and supplies the intestinal canal with sufficient moisture to replace deficient mucus. It causes the obstructive waste matter to pass gently out of your system at a regular hour, absorbing and removing the poisons as it goes. Nujol regularity keeps the traffic of your mind and body operating on schedule You admire the Panama Canal system. Why not

BERNSTORFF SAYS HUNS WILL SUPPORT WILSON

PARIS, Dec. 26.—"All the helligerents have aucepted President Wilson's 14 points, and the only question to be discussed is their interpretation," said fount von Bernstorff, former German ambassador to the United States, in giving his opinion of what Germany's attitude would be at the peace conference, according to the Geneva correspondent of the Matin.
"Germany," declared the count, "will keep to the president's program, which grants each people of an ethnical group the right to dispose of itself."
Asked if he thought the president's program would furnish the basis for a lasting peace. Count von Bernstorff shrugged his shoulders.
"This is the only one which can be proposed at present," he added, "and the attempt must be made to apply it. At any rate we shall support it."

CARRANZA GIVEN HIGH **POWERS ON FINANCES**

MEXICO CITY, Dec. 26.—Extraordinary powers in financial matters have been extended to President Carranza by the chamber of deputies. This action was taken after the president had sent a message to the chamber outlining the necessity for such powers. Under the new authority granted, President Carranza is expected soon to issue decrees removing until June 30, 1519, import duties on foodstuffs, articles of primary necessity to the country and on agricultural implements and irrigation machinery. It is expected that for a period of three months.

Constitutional reforms nave been proposed by which the rorce of several sections of the constitution will be mitigated. These refer principally to sections governing the power of state legislatures to fix the maximum number of clergy participating in religious rites and require that all members of the clergy be native born Mexicans. Clauses dealing with the nationalization of church property will be brought into agreement by another proposed amendment. MEXICO CITY, Dec. 26.-Extraordi
